SUMMARY

Motivated B.Tech CSE (AI-ML) student at Adani University with a strong foundation in programming, databases and web development, and a passion for building real-world tech solutions. Completed a Python and database internship, and is actively involved in university tech communities with hands-on experience in AI tools, full-stack basics and competitive ideation.

EDUCATION

Adani University, Ahmedabad Aug 2025 – Jun 2029
B.Tech — Computer Science Engineering (AI-ML)

- **Semester 1 SPI:** 8.2
- **Semester 2 SPI:** 7.67

Class XII (Higher Secondary)

- **Percentage:** 87%

JEE Mains

- **Percentile:** 90.21 PR

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript, SQL
- **Web Development:** HTML, CSS, JavaScript, Responsive UI Design
- **Databases:** SQL (PostgreSQL , MySQL , Supabase)
- **AI Tools:** Prompt Engineering , Google AI Studio , LLMs

PROFESSIONAL SKILLS

- **Time Management:** Balances coursework, projects and club activities while meeting deadlines.
- **Teamwork:** Collaborates effectively in team competitions and group projects.
- **Presentation:** Communicates ideas and project outcomes clearly to peers and judges.
- **Problem Solving:** Breaks complex problems into logical steps and tests solutions systematically.

INTERNSHIP

Junior Data Scientist Intern — Depple Soft Private Limited Jun 2026 – Jul 2026
Parking System Project

- Developed a parking management system in Python with a database backend to track slot availability, vehicle entry and exit, and parking records.
- Designed database tables and wrote SQL queries to store, retrieve and update vehicle and slot data.
- Implemented automatic slot allocation and fee calculation based on parking duration.
- Tested the application with sample data and fixed bugs to ensure reliable day-to-day operation.

PROJECTS

Student-Faculty Management System PostgreSQL · Web Development

- Built a system to manage student and faculty records, including profiles, departments and course details, using PostgreSQL for data storage.
- Created a clean, responsive web interface with HTML, CSS and JavaScript for adding, viewing, updating and searching records.
- Designed relational tables with keys and constraints to keep data consistent.

Interactive Web Projects HTML · CSS · JavaScript

- Built interactive web pages with a focus on clean UI and responsive design; exploring AI-integrated web applications and full-stack concepts through self-driven learning.

AI-Powered Speech Applications Google AI Studio · Python

- Developed and deployed AI-powered speech applications as part of certified coursework, and continue building Python skills for data processing and AI model interaction.

ACHIEVEMENTS & ACTIVITIES

Runner-Up — Ideathon Competition 2024–25
ACM Club, Adani University

- Secured Runner-Up among multiple competing teams in a university-level ideation challenge organised by the ACM student chapter.

Participant — Build with AI Competition 2024–25
ACM Club, Adani University

- Applied practical AI development skills in an AI-focused build competition.

CERTIFICATIONS

- **Prompt Engineering for Everyone** — IBM
- **Build and Deploy Apps with Google AI Studio** — GUVI × HCL
- **Multilingual AI Speech App with Vibe Coding** — GUVI × HCL
- **AI Foundations** – OpenAI Academy
